

## **Title list (sample)**

## **UDC (Universal Decimal Classification)**

## **Authors (Surname and Initials)**

**Name of the article** (*in capital letters, Times New Roman font, font size 12*)

## **Name and address of institution**

Summary in azerbaijani and english languages, 200-250 words-aim, material and methods, results, conclusion (*Times New Roman font, font size 11, interval 1*).

The second page and further the article (*times new roman font, font size 12, interval 1,15, page parameters: upper and lower – 2 sm, left – 3 sm, right – 1 sm. The volume of the original articles, including summary, tables, figures should not exceed 7-9 pages, literature reviews – 10-15 pages, clinical cases – 4-6 pages. The tables, pictures and diagrams must be clear, compact, visual, have a name, headlines must exactly match their content. All numbers in the tables must exactly match the numbers in the text and be processed statistically. Abbreviations, except generally accepted, are not allowed. The conventions of special terms at the first mention fully. It is forbidden to publish any information that allows identification. Substantiation of work (brief introduction, reflecting the status of the issue)*).

## **Actuality of work**

## **Purpose**

## **Material and methods**

## **Results**

**Discussion (obtained results must be compared with the investigations indicated in the literature)**

## **Conclusions on points or conclusion (1-3 sentences)**

References / the list of literature at the end of article is given not in alphabetical order, but in the sequence in which the sources are presented in the article. If the article has a repeated reference to a literary source, it is given the same number. All sources should be numbered and their numbering should strictly correspond to the numbering in the text. The number of literary source

used should not exceed 10-20 for original articles and 50 for literary reviews. When referring to dissertation abstracts, their name should be indicated. In the list of literature preference should be given to scientific papers published over the past 5-10 years.

**Authors participation:** concept and design of investigation (surname and initials of the authors)

**Material collection and processing** (surname and initials of authors)

**Statistical processing of data** (surname and initials of authors)

**Spelling text** (surname and initials of authors)

**Editing** (surname and initials of authors)

Authors declare about no conflict of interests.

**For correspondance:** Indicate the coordinates of the responsible author – title, position, place of work, email address, number of mobile phone for the editors.

### **Author profile**

*(the card is filled out for each author or co-author separately)*

A. Personal data of the author:
